## INTRODUCTORY DAY TASKS

Welcome to Coulsdon Sixth Form College Visual Arts department.

In this session you will learn about the A/level Photography course at Coulsdon College and experience the facilities the college has to offer you.

Your first project will be about cameraless photography and the artists that specialise in cameraless photography. In this session you will create a photogram based on everyday objects, learning how to compose everyday objects on a page to create a photographic print.

After the session take your experiments home and complete the summer tasks, based on artists you will be studying when you start your course.

# WE LOOK FORWARD TO SEEING YOU IN SEPTEMBER
